40 Years
1974-2014

...a bridge over troubled audio

Jensen wrote the book on magnetic bridge technology and after 40 years, continues to design and produce isolation transformers with the least noise, lowest distortion and widest frequency response in the industry. Jensen... the world's finest transformers.

jensen
ISO-MAX
Made in U.S.A. by JENSEN TRANSFORMERS, INC.
IN MODEL CI-2RR OUT

The Jensen Iso-Max® CI-2RR stereo audio ground loop eliminator received the prestigious CEDIA Electronic Lifestyles® Product award as a significant contributor to the advancement of the home theater install industry.

Acoustic clouds – looking great, sounding better!

Primacoustic's clever SlipNot™, Helix™ and Corkscrew™ hardware mounting devices make installation and levelling a snap!

Primacoustic Paintables™ panels can be painted to match any decor! Ideal for restaurants, lobbies, exhibition halls, boardrooms, gyms, lecture rooms, studios or a thousand other spaces where dramatic style and great acoustics can complement one another.

Easy and quick to put up, Primacoustic Paintables™ acoustic clouds can turn an uncomfortably reverberant room into a great sounding intimate space in no time at all. A variety of paintable panel shapes and sizes give your installs an air of architectural sophistication and fun!
